Hi all,

Attached is the latest draft of the IRIS Report to Congress. We have until COB tomorrow to turn it in. This version incorporates the last round of edits from Lynn (all accepted). I've made some additional edits in track changes. Here are what I perceive to be the outstanding issues:

## Ex. 5 Deliberative Process (DP)

Still waiting for sample text for the comp tox bullet from the IOAA. I'll keep you all posted. If you have input/thoughts, I'd love to hear it ASAP. I will send this over, one way or the other, tomorrow afternoon to the IOAA.

**Importance:** High

Another day, another draft of the new IRIS report to congress (attached). However, we now have some feedback from tom, bob, and lek. Here are the major issues that I need help pulling together. I think we could argue that we need to the beginning of next week, but I'm sure they'd prefer to have it on Friday.

NOTE: In the new attachment, I have comment bubbles with Bob's comments. Also incorporating edits from Lynn. Where possible, I've already tried to respond.
